WHO WE ARE

SALICA

WHO WE ARE

100 years widening Campos among us.

100 years of fishing tradition, carried out by employees committed on bringing the best of the sea to each one of our homes.

We are celebrating the Centenary of Campos in 2021, with the roots that have made us achieve what we are fixed on the past and looking forward to a more sustainable and healthy future that will come. Close to you, as always.

100 years looking after the sea, 100 years looking after you.

SALICA

SALICA is member of GRUPO ALBACORA, a worldwide leading group of companies, dedicated to catching, transportation, storage, production, packaging and distribution of tuna.

ALBACORA

SOCIAL RESPONSABILITY

ENVIROMENTAL COMMITMENT

SUSTAINABILITY

14 LIFE
BELOW WATER

8 DECENT WORK AND
ECONOMIC GROWTH

12 RESPONSIBLE
CONSUMPTION
AND PRODUCTION

SALICA

SUSTAINABILITY

PARTNERS

In 2009, acclaimed scientists, leaders in industry and environmental champions launched the **International Seafood Sustainability Foundation (ISSF)** based on shared concerns about the future of global tuna fisheries and a desire to do something about it.

<https://iss-foundation.org/>

MSC works with fisheries, scientists and industry to ensure sustainable fishing in our oceans and to make it easy to find and buy sustainable and certified products from the sea.

www.msc.org

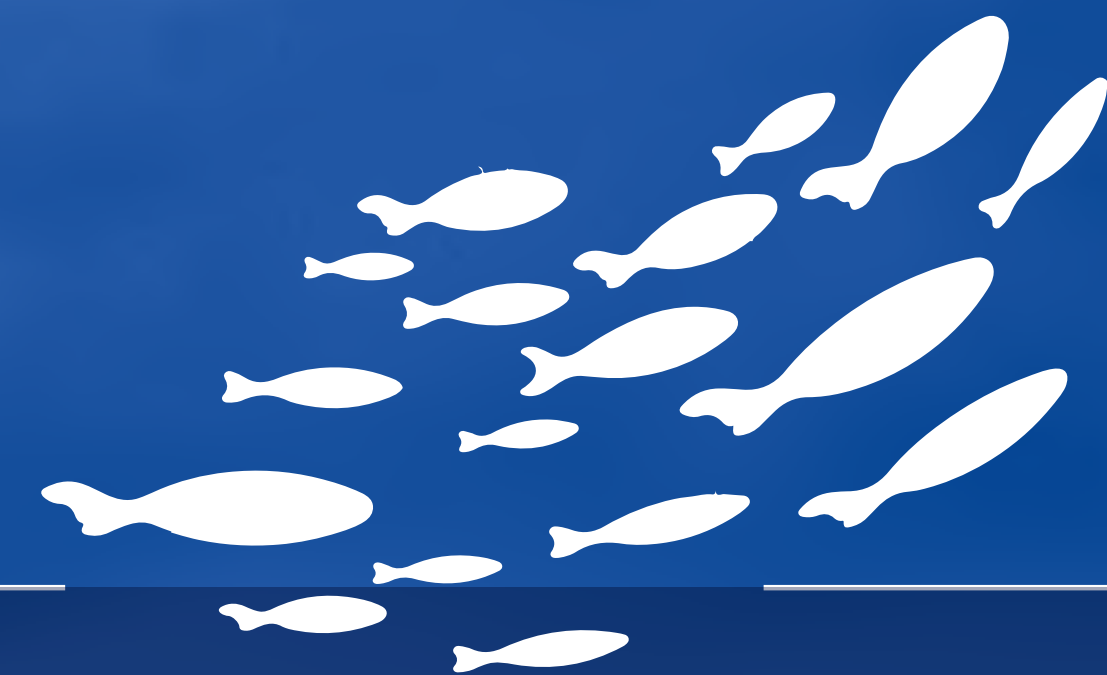

The **Responsible Fishing Tuna (RFT)** standard contributes to the catch of this species being carried out in a sustainable way, helping to protect the seas and ensuring that fishermen have adequate working conditions, safety and life on board. This certification, a pioneer worldwide, ensures the traceability of RFT tuna from its fishing until it reaches your table. By means of the AENOR certification of the **APR Chain of Custody**, the consumer can recognize canned tuna that has been caught in a responsible way by labeling the **AENOR Brand for Responsible Fishing Tuna**.

www.atundepescaresponsableaenor.com

BTWC globally promotes sustainable management of tuna as a natural resource using scientific knowledge and good practices leadership.
